Greater Park Place: Community Gateway and Neighborhood Beautification Stewardship Plan

Abstract
The Community Design Assistance Center (CDAC) recognizes the need to incorporate detailed stewardship plans with conceptual design work. A project cannot achieve long term success without a strategy for proper planting, care, and maintenance. The information in this document describes strategies for CDAC design concepts that have been implemented. Such stewardship includes general landscape maintenance, tree and planting care, controlling nonnative and invasive plant species, pests, disease control, habitats, streetscapes, and parks.

One of the greatest and most satisfying aspects of landscape design is its ever changing and transformative nature over time. CDAC is committed to providing communities with sustainable designs and the continued success of our work over time is ensured through the environmental stewardship practices described in this document. CDAC aims to provide resilient and sustainable design solutions that can grow and evolve for the benefit of future generations. After projects developed by CDAC are implemented and installed, it is our hope that this stewardship plan will help each community assist be successful stewards of their respective conceptual designs.

The Gateways Beautification and Tourism Signage Project aims to create effective gateway signage for Tamworth and the surrounding towns and villages of Manilla, Barraba, Nundle and Kootingal. It also provides the opportunity to reflect the individual characters of each of the towns and villages while linking these communities together within the context of the overall Tamworth region.

**Background.**

Contribute toward town and village beautification, frame main entry points into the urban centres of the Tamworth Region.

**Stages of Project.** The Department of Public Works, Office of Community Beautification provides support for individuals and groups developing beautification projects in their communities. See below for a list of some of the most requested projects and visit our OCB website for additional contact information.

**Paint-Out Graffiti.** The Office of Community Beautification (OCB) can provide support supplies to eliminate recurrent graffiti on private property to community members. Please note that our office generally carries 5-gallon containers of paint and in generic colors. For additional information, contact your OCB liaison listed below.
